SOHAM BHONGE

Dhule, India | sohambhonge73@gmail.com | +91-8421066807 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Python, SQL, Power BI, and data visualization. Skilled in data cleaning, exploratory data analysis (EDA), and building interactive dashboards to drive business insights. Experienced in working with large datasets, PostgreSQL, and Google Looker Studio to support data-driven decision-making. Passionate about solving real-world analytical problems and delivering impactful insights.

EDUCATION

Gangamai College Of Engineering, Dhule **Nov, 2022 - Present**

Bachelor of Engineering, Computer Engineering CGPA : 8.01/10.0

XII : Zulal Bhilajirao Patil Jr College, Dhule **August, 2022**

Maharashtra State Board Percentage : 56.67

X : Jai Hind High School, Dhule **June, 2020**

Maharashtra State Board Percentage : 85.40

EXPERIENCE

Data Visualization Associate, Excelerate (Internship) **July, 2025 - August, 2025**

- Performed Exploratory Data Analysis (EDA) on large datasets to identify trends, patterns and insights for decision making.
- Performed data cleaning and preprocessing, ensuring data accuracy and consistency for analysis.
- Configured PostgreSQL and successfully loaded and managed structured datasets.
- Designed and developed a master table to consolidate data for structured analysis and reporting.
- Built an interactive dashboard using google looker studio, enabling clear visualization of key metrics
- Collaborated with a global team, enhancing cross-cultural communication and teamwork skills

SKILLS

Programming Languages : C, Python, SQL
Data Visualization : Power BI, Google Looker Studio, MS Excel
Analytical Abilities : EDA, Data Cleaning, Statistical Analysis
Data Collection : Web Scraping, Beautifulsoup, Data Extraction
Tools & Platforms : Jupyter Notebook, Anaconda, Git, Github, VScode, Postgresql, Mysql

CERTIFICATIONS

- **Data Analytics Job Simulation** – Forage, 2026
- **Data Visualization Associate** – Excelerate (Internship), 2025
- **Power BI Course** – Skillcourse, 2024

PROJECTS

➢ **Mobile Sales Dashboard,** SkillCourse
- Performed end to end data cleaning and transformation using power query, including handling missing values, standardizing formats, and building a structured data model.
- Designed a custom calender table with DAX to implement time intelligence functions such as Month-To-Date(MTD) and trend analysis across multiple periods.
- Created dynamic visualizations and interactive slicers to support real time business decision making and uncover key insights on sales trends, customer behavior, and payment preferences.

➢ **Global Learner Enrollment & Marketing Analytics,** Excelerate
- Built interactive Global Learner Enrollment and Marketing Analytics dashboards using Google Looker Studio to analyze user demographics, geographic trends, and campaign performance.
- Integrated and analyzed data from PostgreSQL and Excel, transforming raw datasets into structured insights for reporting and decision-making.

- Designed dynamic visualizations to track enrollment patterns, opportunity popularity, and regional participation trends across global users
- Evaluated marketing campaign effectiveness by analyzing key metrics, enabling data-driven strategies to improve user acquisition and engagement

➢ **Books Web Scraping**

- Developed a Python-based web scraping pipeline to extract book data (title, price, rating) from 50+ webpages using BeautifulSoup and Requests.
- Automated data collection and storage by downloading HTML pages locally and parsing structured information efficiently.
- Processed and organized scraped data using Pandas, creating a clean, analysis-ready dataset exported as CSV.
- Demonstrated end-to-end data extraction, transformation, and structuring workflow, enabling further data analysis and visualization.
